

We are a leading innovative supplier of installations in the field of electrical energy systems. Lindenberg-Anlagen GmbH is a manufacturer of diesel and gas generators for worldwide use in the marine and industrial sectors. Our portfolio ranges from standardised power generators to customised special units to complete turnkey power stations. In addition we work as a contract manufacturer for well-known customers, eg. in the areas of steel construction, exhaust silencers and machine housings. Our special solutions and the quality of our products including the service have been appreciated by the industry for 70 years. At the location in Overath (near Cologne) we employ around 120 people.
